Please find below and/or attached an Office communication concerning this application or proceeding.

		Application No.	Applicant(s)					
		10/692,741	YU, JIAN-SHEN					
	Office Action Summary	Examiner	Art Unit					
		VIJAY SHANKAR	2629					
	The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).								
Status								
1)⊠	Responsive to communication(s) filed on 27 Oct	<u>ctober 2003</u> .						
·—	•	action is non-final.						
3)	3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is							
	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.							
Dispositi	Disposition of Claims							
4) Claim(s) 1-8 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) 1-8 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/or election requirement.								
Applicati	ion Papers							
 9) The specification is objected to by the Examiner. 10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152. 								
Priority under 35 U.S.C. § 119								
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 2629

DETAILED ACTION

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 1) Claim 1 recites the limitation "the flat panel display panel" in line 11. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Aoki et al (6,177,916).

Application/Control Number: 10/692,741

Art Unit: 2629

Regarding Claim 1, Aoki et al teaches a driving circuit for flat panel displays disposed on a panel (Figures 1-7; Column 2, line 44- Col.5, line 41), comprising: a plurality of signal lines for providing video signals (figs.1-2; Col.2, line 38- Col.4, line 10); at least one buffer unit for inverting a scanning signal (fig.1,3-5; Col.3, line 50- Col.4, line 50); and a plurality of switch units disposed between the plurality of signal lines (fig.1,3-5; Col.3, line 50- Col.4, line 50); wherein each of the plurality of switch units is connected to at least one signal line to receive a video signal and is connected to the buffer unit whereby the scanning signal controls the operation of the plurality of switch units and a video signal is outputted to an active area (display area) of the flat panel display panel. (Figures 1-7; Column 2, line 44- Col.5, line 41).

Regarding Claim 2, Aoki et al teaches a driving circuit wherein the plurality of switch units and the active area (display area) of the panel are spaced apart with at least one signal line. (fig.1,3-5; Col.3, line 50- Col.4, line 50).

Regarding Claims 3-4,6-7, Aoki et al teaches a driving circuit wherein the buffer unit for inverting a scanning signal is an inverting circuit receiving a timing signal which is then inverted to output at least one scanning signal (fig.1,3-5; Col.3, line 50-Col.4, line 50), and the at least one scanning signal is an inversed signal of the timing signal; one signal line is disposed between the plurality of switch units and the buffer unit for inverting a scanning signal, and the plurality of signal lines are disposed between the switch units and the active area (display area). (fig.1,3-5; Col.3, line 50-

Art Unit: 2629

Col.4, line 50).

Regarding Claim 5, Aoki et al teaches a driving circuit wherein the plurality of switch units are thin-film transistors.(elements 230, 231 in fig.1).

Regarding Claim 8, Aoki et al teaches a driving circuit wherein the panel is a liquid crystal display panel (Fig.1; Col.2, line 45).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VIJAY SHANKAR whose telephone number is (571) 272-7682. The examiner can normally be reached on M-F 7:00 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, BIPIN SHALWALA can be reached on (571) 272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
